

# Cuvée Laïs

The red wine vintage 2008 Cuvée Laïs is the consequence of a great change. In fact, this new wine replaces 2 former cuvées that we produce, namely La Coulée and Saturne

Thanks to a rising quality in vineyards and desire to develop our wines, this new vintage was born.

We wish by this wine to obtain a combined of fruit and wealth which brought us separately our previous 2 cuvées.

The blend is indeed local, it shows at once the variety of our vines and that of our soil: Carignan, Grenache Noir, Shyraz and Mourvèdre on schists limestone and marls.

Vines are very different some of the others in term of age and soil, but the quality which they return us allows us to make singular and right wines.

Wines are vinified by soil, it is for us, the best way of letting them express themselves. Then they are blended in concrete tank.

The material of breeding is essential, and its choice is going to depend on notes which we wish found in the wine. So, the concrete brings us a big freshness and sappy notes which we like so much.

The vintage 2008, will symbolize the natural evolution of our domain.

**Production : 20 000 bouteilles**

**Yield : 30hl/ha**

**Surface : 4,5 ha**
